

Title insurance offered

EnTitle Insurance company recently launched EnTitle Direct in Louisiana.

The digital platform allows consumers to monitor their home closings and purchase title insurance directly, instead of allowing title agents to take a commission that is 70-90 percent of the premium.

EnTitle Direct's premium rates are 35 percent lower than those offered by other title insurance companies in the state. This can result in hundreds or thousands of dollars in savings on closing costs for home purchases and refinances.
